PASSED AUDITS (32)

Show

Accessibility

These checks highlight opportunities to [improve the accessibility of your web app](#). Only a subset of accessibility issues can be automatically detected so manual testing is also encouraged.

NAMES AND LABELS

<div><div>▲</div>Links do not have a discernible name</div>	<div>▼</div>
---	--------------

These are opportunities to improve the semantics of the controls in your application. This may enhance the experience for users of assistive technology, like a screen reader.
